

CHILD NUTRITION DASHBOARD

About the Dashboard

The Child Nutrition Dashboard is comprised of public data published in the [Child Nutrition Tables](#). The goal of the dashboard is to provide national and state level visualization of meals served, participation, and funding data for the National School Lunch Program, School Breakfast Program, Child and Adult Care Food Program, and Summer Food Service Program. The Dashboard can be used by Federal, State, and Local Organizations to assess trends in Child Nutrition Program activity.

Data Sources

The Child Nutrition Dashboard is comprised of public data published in the [Child Nutrition Tables](#).

Data Limitations

- A. Data are subject to revision.
- B. In SY 2020-2021, many schools served meals through the Summer Food Service Program (SFSP) due to the COVID-19 waivers. The COVID-19 waiver, which allowed schools to serve meals through the Seamless Summer Option (SSO) and report separately, started in SY 2021-2022. FY 2022 data includes meals served through the SSO.

Methods and Key Definitions

See "Glossary" of the Child Nutrition Dashboard for Methods and Key Definitions.
