

STATE WAIVER REQUEST

1. **Waiver Serial Number (if applicable):** 2150020
2. **Type of request:** Initial
3. **Statutory citation:** Section 6(o) of the Food and Nutrition Act of 2008
4. **Regulatory citation:** 7 CFR 273.24, January 17, 2001 rule (66 FR 4438)
5. **State:** Connecticut
6. **Region:** Northeast
7. **Regulatory requirements:** Section 6(o) of the Food and Nutrition Act of 2008, as amended, provides that no able-bodied adult without dependents (ABAWD) shall be eligible to participate in the Supplemental Nutrition Assistance Program (SNAP) as a member of any household if the individual received program benefits for more than 3 months during any 3-year period in which the individual was subject to but did not comply with the ABAWD work requirement. Section 6(o) also provides that, upon the request of the State agency, the Secretary may waive the applicability of the 3-month ABAWD time limit for any group of individuals in the State if the Secretary makes a determination that the area in which the individuals reside has an unemployment rate of over 10 percent, or does not have a sufficient number of jobs to provide employment for the individuals.
8. **Description of alternative procedures:** The State of Connecticut is requesting a waiver to exempt residents residing in the entire state from the SNAP time limit at 7 CFR 273.24 under the 2001 rule.
9. **Justification for request:**
Under SNAP regulations at 7 CFR 273.24(f)(2), the State may support a claim of insufficient jobs by submitting evidence that the State qualifies for extended unemployment benefits within the past 12 months.

26 USC 3304 (Public Law 102-318) allows States to use a trigger for the extended benefits program, based on the State's not seasonally adjusted insured unemployment rate (IUR) for the most recent 13 weeks reaching at least: (1) 5 percent; and (2) 120 percent of such IUR for the corresponding 13-week periods ending in each of the two preceding calendar years; or (3) 6 percent regardless of the preceding calendar years.

The Department of Labor's Trigger Notice No. 2020 – 49¹ shows the State's 13-week insured unemployment rate (IUR) was: (1) 6.28 percent and (2) 369 percent of

the 13-week rate for the corresponding period in the two preceding years, making the State eligible for extended unemployment benefits.

Connecticut's seasonally unadjusted unemployment rate for November 2020 is 7.7 percent, a 133 percent increase from November 2019 and a 33 percent increase over October 2020², with some 46,385 people in the state filing initial unemployment insurance claims and another 696,920 filing continued claims in the eight weeks ending December 5, 2020.³ We believe that the exceptional circumstances brought on by the federal public health emergency warrant swift action by USDA.
